

Danielle Walker

Technical lead coordinating the deployment of a web application and developers (3 member team), conducting daily stand-ups, sprint planning, and helping engender team culture. Currently looking to do great work in Utah County and not drive to Salt Lake City every day!

EXPERIENCE

Assure, Salt Lake City, UT — *Technical Lead*

2018 - PRESENT

- Develop the vision and strategy for the nuanced software product line called SPV
- Oversee the timely release and quality of the SPV software product line
- Manage the workflow and procedures to streamline the development process
- Migrate SPV product to a micro-services environment, refactoring code as needed
- Maintain an existing production application, debugging and refactoring for the SPV product.
- Use Angular, Docker, MongoDB, Git and more.

Assure, Salt Lake City, UT — *Full Stack Developer*

2018

- Maintained a production web application
- Quick turn around for bug fixes
- Trained new team members on the maintenance process
- Communicated proper testing procedures to QA to ensure quality of the application

FiveStrata, Pleasant Grove, UT — *Assistant/Data Analysis*

2016 - 2017

- Developed tools that improved pricing and the ability to monitor zip code performance
- Optimized programs to streamline pricing and communication with media partners and clients
- Assisted in data backed business decision making
- Monitored data to ensure data was accurate and tools were performing as expected

EDUCATION

V School, Salt Lake City— *Full Stack Web Development*

Utah State University, Logan, UT — *Bachelor of Arts*

Liberal Arts and Science with a minor in Music

Graduated Magna Cum Laude

2510 W 2300 N
Lehi, UT 84043
(801) 633-4338
